Jack Malloch was a Canadian aviation pioneer who made significant contributions to the development of aviation in Canada. He was a skilled pilot, engineer, and inventor, and he played a key role in the development of several important aviation technologies.

Early Life and Career

Jack Malloch was born in Scotland in 1885. He immigrated to Canada in 1906 and settled in Vancouver, British Columbia. He began his aviation career in 1910, when he joined the newly formed Royal Canadian Flying Corps. Malloch quickly became one of the most skilled pilots in the RFC, and he served with distinction during the First World War.

Post-War Career

After the war, Malloch returned to Canada and continued to work in aviation. He was a founding member of the Canadian Aeronautical Institute,

and he served as its president from 1929 to 1931. Malloch also worked as a consultant for several aviation companies, and he helped to design and develop several new aircraft.

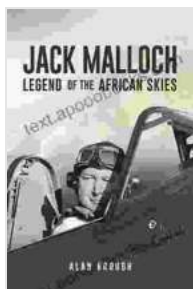

Inventions and Innovations

Jack Malloch was a prolific inventor and innovator. He held over 100 patents for his aviation-related inventions. Some of his most notable inventions include the Malloch Airship, the Malloch Seaplane, and the Malloch Parachute. Malloch's inventions helped to advance the development of aviation in Canada, and they continue to be used by pilots around the world.

Legacy

Jack Malloch died in 1968 at the age of 83. He is remembered as one of the most important figures in the history of Canadian aviation. His contributions to the development of aviation in Canada are immeasurable, and his legacy continues to inspire pilots around the world.

Jack Malloch was a true pioneer of aviation. His courage, determination, and innovation helped to shape the development of aviation in Canada. His story is an inspiration to all who dream of soaring through the skies.
