Walt argues that both countries are engaging in increasingly dangerous behavior, such as military build-ups, provocative military exercises, and economic coercion, that could lead to unintended escalation. He warns that even a small conflict between these two superpowers could have devastating consequences, and he urges policymakers to take steps to reduce the risks of war.

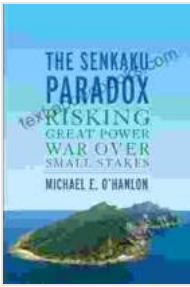

Walt's book is a timely and thought-provoking contribution to the debate over great power war. He provides a clear and concise analysis of the risks involved, and he offers a number of concrete recommendations for policymakers. *Risking Great Power War Over Small Stakes* is a must-read for anyone who is concerned about the future of international peace and security.

Here are some of the key points that Walt makes in his book:

- The United States and China are the two most powerful countries in the world, and they are increasingly competing for global dominance.
- Both countries are engaging in increasingly dangerous behavior, such as military build-ups, provocative military exercises, and economic coercion.
- Even a small conflict between the United States and China could have devastating consequences.
- Policymakers need to take steps to reduce the risks of war.

Walt's book is a valuable resource for policymakers, scholars, and anyone who is concerned about the future of international peace and security. He provides a clear and concise analysis of the risks involved, and he offers a number of concrete recommendations for policymakers. *Risking Great Power War Over Small Stakes* is a must-read for anyone who wants to understand the challenges facing the world today.
