

The China Price Is The Cheating Price: Ft Press Delivers Elements

The China Price Is The Cheating Price: Ft Press Delivers Elements is a must-read for anyone who wants to understand the true cost of doing business in China. Author Porter Erisman draws on his decades of experience in China to provide a fascinating and insightful look at the challenges and opportunities of operating in this complex and dynamic market.

Erisman argues that the traditional view of China as a low-cost manufacturing hub is outdated, and that businesses need to adopt a new approach to succeed in China. He offers a wealth of practical advice on how to navigate the Chinese regulatory environment, build relationships with Chinese partners, and protect intellectual property.

The China Price Is The Cheating Price is an essential resource for anyone who wants to do business in China and avoid the costly mistakes that can come from underestimating the challenges.

The True Cost of Doing Business in China

In the past, many businesses have been lured to China by the promise of low labor costs. However, Erisman argues that this is a false economy. He points out that labor costs in China have been rising rapidly in recent years, and that other costs, such as transportation and energy, are also on the rise. In addition, China's government has been implementing a number of policies that make it more difficult for foreign businesses to operate in the country.

As a result, Erisman argues that the true cost of doing business in China is much higher than many businesses realize. He estimates that the total cost of doing business in China is now 20-30% higher than in the United States.

How to Succeed in China

Despite the challenges, Erisman believes that there are still opportunities for businesses to succeed in China. However, he argues that businesses need to adopt a new approach to succeed in this complex and dynamic market.

Erisman offers a wealth of practical advice on how to navigate the Chinese regulatory environment, build relationships with Chinese partners, and protect intellectual property. He also emphasizes the importance of having a clear understanding of the Chinese market and of being patient and persistent.

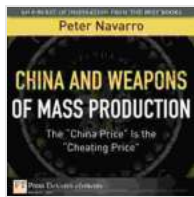

The China Price Is The Cheating Price

In his book, Erisman argues that the "China Price" is the "cheating price." He points out that many Chinese companies are willing to cut corners on quality and safety in Free Download to win business. This can lead to serious problems for foreign businesses that rely on Chinese suppliers.

Erisman urges foreign businesses to be aware of the risks of ng business in China and to take steps to protect themselves. He recommends that businesses conduct thorough due diligence on potential Chinese partners and that they have a clear understanding of the Chinese regulatory environment.

The China Price Is The Cheating Price is a must-read for anyone who wants to do business in China. Author Porter Erisman provides a fascinating and insightful look at the challenges and opportunities of operating in this complex and dynamic market. Erisman offers a wealth of practical advice on how to navigate the Chinese regulatory environment, build relationships with Chinese partners, and protect intellectual property. The China Price Is The Cheating Price is an essential resource for anyone who wants to do business in China and avoid the costly mistakes that can come from underestimating the challenges.
