

The Triumph Tiger Cub Bible: The Ultimate Guide to the Classic British Motorcycle

The Triumph Tiger Cub is a classic British motorcycle that was first produced in 1953. It was a popular choice for both commuting and leisure riding, and it quickly became one of the best-selling motorcycles in the UK. The Tiger Cub was discontinued in 1968, but it remains a popular choice for classic motorcycle enthusiasts today.

The Triumph Tiger Cub was developed as a smaller and more affordable version of the Triumph Tiger 100. It was powered by a 200cc single-cylinder engine, and it had a top speed of around 60 mph. The Tiger Cub was a relatively lightweight and easy-to-ride motorcycle, which made it ideal for both beginner and experienced riders.

The Tiger Cub was produced in a number of different models over the years, including the T20, T25, and T30. The T20 was the most basic model, while the T30 was the most powerful and expensive. All models of the Tiger Cub were reliable and well-built motorcycles, and they are still popular today among classic motorcycle enthusiasts.

The Triumph Tiger Cub has a single-cylinder, air-cooled engine with a displacement of 199cc. The engine produces 12 horsepower at 5,500 rpm, and it has a top speed of around 60 mph. The Tiger Cub has a four-speed gearbox, and it is equipped with a kickstarter and a carburetor.

The Tiger Cub has a tubular steel frame, and it is suspended by a telescopic front fork and a swingarm rear suspension. The Tiger Cub has a wheelbase of 47 inches, and it weighs around 250 pounds.

The Triumph Tiger Cub is a relatively easy motorcycle to maintain. However, there are a few things that you should keep in mind to keep your Tiger Cub running in top condition.

- **Regular maintenance:** The Tiger Cub should be serviced regularly, according to the manufacturer's recommendations. This includes changing the oil and filter, cleaning the air filter, and checking the brakes and tires.
- **Proper storage:** When you are not riding your Tiger Cub, it is important to store it properly. This means storing it in a dry and well-ventilated area. You should also cover the Tiger Cub to protect it from dust and moisture.
- **Battery maintenance:** The Tiger Cub has a 6-volt battery. It is important to keep the battery charged and in good condition. You should check the battery level regularly, and you should replace the battery if it is not holding a charge.

The Triumph Tiger Cub is a classic British motorcycle that is still popular today among classic motorcycle enthusiasts. It is a reliable and well-built motorcycle that is easy to ride and maintain. If you are looking for a classic motorcycle that you can enjoy for many years to come, the Triumph Tiger Cub is a great choice.

The Triumph Tiger Cub Bible is the definitive guide to the classic British motorcycle. This comprehensive book covers everything you need to know about the Tiger Cub, from its history and development to its technical specifications and maintenance tips.
