## Addressing the Needs of African American Males in Community Colleges

The imperative of engaging African American males in community colleges stems from the alarming disparities in educational outcomes they face. Despite their growing presence in higher education, African American males continue to lag behind their white counterparts in college enrollment, persistence, and completion rates. This persistent gap calls for tailored and effective strategies that specifically address their unique needs and aspirations.

This groundbreaking book, "Engaging African American Males In Community Colleges: Contemporary Perspectives," offers a comprehensive examination of the challenges and opportunities associated with engaging African American males in community college environments. Bringing

together insights from leading scholars and educators, the book provides actionable strategies and best practices that can empower these students to thrive in higher education and beyond.
